Four drawer file cabinet

€600 + tax

This solid filing cabinet was made in East Germany in the 1950s or 1960s. It shares its design with filing cabinets produced in the early twentieth century by companies such as Kardex and Blödner.
This is just an example of the filing cabinets currently in stock at Goldstein, which feature minor variations in terms of handle shapes and nameplates. They are available within about a fortnight on request.
