Industrial cupboard

€950 + tax

To produce this **industrial cupboard** featuring a glass door with a cast iron frame, we combined an old factory window dating back to the 1920s with a cabinet built by us out of pine. One striking feature is the dovetailed corner joints which we've made by hand. Thanks to the movable shelf, the cupboard's interior can be adapted as required. Moreover, additional shelves are available on request.

This item makes an ideal drinks cabinet or display case, or alternatively can simply be put to general use - it's up to you! But whatever it's used for, it's definitely a very decorative piece of furniture for your home.
