Locker with wooden frame and metal doors

€1250 + tax

To produce this [industrial cabinet](#), we combined two doors from an old factory locker with a cabinet built by us out of spruce. One striking feature is the dovetailed corner joints which we've made by hand. The locker has four shelves. Perfect as storage space in your office, apartment or loft. The doors have been sandblasted, brushed and waxed.

Similar cabinets are available on request. For further information or if you have any questions please do not hesitate to [contact us](#).
