Article-ID BAT3

Large battery glass vessel

€260 + tax

Filled with acid and lead, vessels like this were used as emergency power generators in factories and public buildings. This moulded glass version was made in Germany between the early industrial age and first few years of East Germany. The glass contains tiny bubbles and other slight manufacturing flaws, making each one unique. Professionally cleaned. Without decoration.

Additional items:

Iron and reclaimed wood coffee table

High-gloss polished hands from a French rubber glove factory

Medicine cabinet

Dimensions:

60 x 28 x 20 cm (23.6" x 11" x 7.9")
