## Medium battery glass vessel

€75 + tax

---

Filled with acid and lead, vessels like this were used as emergency power generators in factories and public buildings. This moulded glass version was made in Germany between the early industrial age and first few years of East Germany. The glass contains tiny bubbles and other slight manufacturing flaws, making each one unique. Professionally cleaned.

**Dimensions:**

33 x 21 x 20 cm (13" x 8.3" x 7.9")

**Availability:**

on request
