Industrial spotlight on tripod

€1800 + tax

This highly decorative industrial spot was manufactured by EOW (Elektroinstallation Oberweimar, founded in 1907). The aluminum case has been sandblasted and polished. The spot can be rotated and tilted. It's mounted on an old height-adjustable wooden tripod that we have carefully cleaned and treated with linseed oil. The wiring has been replaced and fitted with a dimmer.
Check out our blog post about the spotlight for further information or write us an email.

Dimensions:
Diameter (shade): 37cm (14.6″)
Depth (spot corpus): 28cm (13.8″)
Height adjustable: 152cm (59.8″) – 195cm (76.8″)
Weight: approx. 22 kg
