Red Crane Spot

€1200 + tax

The only similar light we can find in the archives is black, although the description doesn't entirely match. These lights were produced in the 1930s and 1940s. The aluminium parts are polished while the steel components are polished and chrome-plated. They have been powder-coated in RAL 3002 (carmine red). Like all our lights, they are supplied complete with a chain and flex. We currently have four pieces available.

Dimensions:

diameter: 45cm (17,7")

height: 60cm (23,6")

Availability:

Available for order in different RAL shades / lead time approx. 14 days
