Adjustable rhomboid theatre spotlight
with red curved glass

€245 + tax

This rare stage spotlight with its extraordinary shape was made towards the end of the East German era. It was used for individual lighting at theatres, concert halls and discotheques. Featuring a magnificent piece of red curved glass, it can be mounted on walls or ceilings or alternatively suspended, making it very versatile. The body has been re-powder-coated in cream while the mounting shackle has been repolished. Comes with an E40 socket (adapter for E27 available).

Dimensions:

body: diameter 30 cm (11.8") | height 60 cm (23.6")
