€1200 + tax

This sculpture inspired by John Heartfield's 1932 photomontage 'The Spirit of Geneva' consists of a pigeon impaled on a German bayonet made in 1871 by the Weyerberg Brothers in Solingen, a German town famous for the production of knives and other blades. The pigeon is a dried, stained formaldehyde specimen dating from around 1920. The sculpture is mounted on a laboratory stand produced in about 1900.
