Needle holder

€190 + tax

This surgical needle holder made in around 1930 is based on a design by Reverdin. It comes with a replaceable, gold-plated needle. Its lever mechanism used to open and close the eye of the needle in order to be able to grip thread in a wound was a surgical breakthrough in its day. It bears the inscription 'Bruneau Déposé'.

Dimensions:

length: 24cm (9,5")
