Surgical saw

€380 + tax

This bone saw used for amputation is based on a Charriere design. It was produced by an unknown company in Nuremberg (the stamp is illegible) in about 1870. The saw is made out of steel, which is slightly rusty. The handle is made of ebony and contains a brass core. The saw blade has been replaced.

Dimensions:

length: 36cm (14")

height: 8,5cm (3,4")
